

Electrozad's Commitment to The Ozad Institute of Hotel-Dieu Celebrated

On Wednesday, June 3rd, 2009 a celebration was held to honour Electrozad Supply's generosity to the OZAD Institute of Hotel-Dieu Grace Healthcare. Since 1990 Electrozad Supply and the Electrozad Foundation have donated over \$425,000 to the Institute.

Dr. John Strang, Director of the OZAD Institute, used this occasion to publicly recognize and thank those who have made the Institute a reality including: Mr. Joseph Ozad, Mr. Bryan Smith, Mr. Ron Carrigan and current staff at Electrozad Supply.

The OZAD Institute is a community resource dedicated to research, education and training in developmental disabilities. The work completed at the Institute is a great resource for all children mental health programs throughout Windsor and Essex County. Collaborative relationships have also been established with the John McGivney Children's Centre, Maryvale Adolescent and Family Services, the Teen Health Centre, and our two area school boards (GECDSB & WECDSB). Since its creation, 27 articles have been published and over 100 community-based presentations have been given. Without the support from the Electrozad Supply, work at the Institute would not be possible.

Pictured above is William C. Smith, President of the Electrozad Group of Companies and Dr. John Strang, Director of the OZAD Institute. Mr. Dave Taylor, Electrozad's Director of Sales and Marketing currently serves on the OZAD Institute's Advisory Committee.
