

DO YOU HAVE WHAT IT TAKES?

STEP UP TO THE CHALLENGE!

The 2017 IDEAL Skills Challenge is a competition that brings together Canadian professional electricians, apprentices, and electrical students to find the best of the best. Contestants test their skills at events across the country, using IDEAL tools to complete The Challenge while racing the clock. If you win, you'll get a prize pack - but more than that - the bragging rights to call yourself one of the best electricians in Canada! ElectroZad London held their annual Oktoberfest on October 5th and participated in the 2017 IDEAL Skills Challenge. The event quickly turned into a heated competition between Elko Electric and MD Electric as they battled for the top spot. **But only one person can call themselves the Fastest and Most Skilled Electrician at ElectroZad.....**

And the winner is...

Jordan Pratt from Elko Electric with an *astoundingly fast time* of **00:59:31!!** We said we were looking for FAST, but Jordan pulled out all the stops. In fact, Jordan is the *first person in Canada to break the 1-minute mark on The Challenge!*

Our second place winner, who was less than one second away from the lead was **Brett Castein**, also from Elko Electric, who clocked in at a lightning fast **1:00:19**. Wow! What are they feeding you in London?

A special shout out to our third place competitor, **Mike Douglas** from MD Electric, who on ANY OTHER DAY would have taken the prize with his excellent time of 1:11:72 on The Challenge. Next time, Mike.

Congratulations Jordan and Brett!
